

The Mears Ashby Society is a small voluntary organisation whose main objective is to help maintain, and where possible, enhance the environs and amenities of Mears Ashby!

This organisation is held together by an annual contribution of a minimum of £5 per household! With this money, the Society has this past year, restored and painted the village telephone box, cleared and maintained the North Street Garden and planted hundreds of poppy seeds. A well supported and enjoyable Fish & Chip Supper and Quiz Evening was organised in November last and is fast becoming an unmissable event!

During this past year an extra 5000 daffodil bulbs have been planted to add to the thousands already planted over the years!

Hopefully, over a period of time, the Society's aim will be to plant more bulbs in Lady's Lane and by the crossroads of Mears Ashby Road and continue to fill all the gaps along the village verges! It is still our aim to plant communal fruit trees somewhere in the village! A Mears Ashby Open Garden Day and afternoon tea in the village hall has been organised in June.

Our AGM and Social will be held at the end of March and MAS members will be asked if they can suggest a specific project or charity where some of the funds raised can be utilised.

I hope, together with the support of our dedicated and hard-working committee, to make a difference so that the village will become even more attractive and a village to be proud to live in!

Monika Spademan
Chairman
